Breakout session 1 - Digital curation economic needs & gaps

- What are your main digital curation challenges?
- What or who could most influentially help to tackle those challenges?
- What current economic inefficiencies do we need to eliminate?
- Is it possible and economically desirable to try and align digital curation practice?
- How can we most effectively invest in digital curation at the institutional, national and international level?

Breakout session 2 – Roadmap

1. Do you share the Roadmap's vision?
2. Please consider the following questions when looking at the set of 6 messages
   a. Is this message meaningful to you?
   b. If this message applies to you, are you prepared to act on it?
   c. Do you agree with this message?
   d. Is this message aimed at the right audiences?

Message 1 - "Identify the value of digital assets and make choices"

Message 2 - "Demand and choose more efficient systems"

Message 3 - "Develop scalable services and infrastructure"

Message 4 - "Design digital curation as a sustainable service"

Message 5 - "Make funding dependent on costing digital assets across their whole lifecycle"

Message 6 - "Be collaborative and transparent to drive down costs"

3. Are the messages complete?
4. Will acting on the messages achieve the vision?
5. Is the vision feasible in 5 years?
6. General Comments?

We'd like to follow up on some responses. Please can we get in touch with you again?
